

The purpose of this document is to provide criteria for athlete's entry into ITU racing.

All entries to ITU races are to be emailed to Maree Kaati at hpadmin@triathlon.kiwi 6 weeks in advance to the race. Any withdrawals (including injury related), must be made **within 48 hours of start list release**

Athletes requesting entries must be a current Triathlon New Zealand (TriNZ) member, eligible to represent New Zealand (NZ), complete Drug Free Sport NZ education, a Pre Participation Medical Evaluation assessment and also have the compulsory travel insurance compliant with the ITU rules/regulations.

The Tri NZ General Manager of Performance holds discretion to override the selection criteria below to allow for fast emerging athletes, and athletes with a proven track record returning from injury.

*Progression is strictly through all levels

Continental Cups and Oceania Champs:

All athletes who have competed in draft legal events and received clearance from Triathlon New Zealand.

Upon entry from Tri NZ, starts will be distributed based on the ITU points system at the year of competition.

World Cups:

Entries for World Cup events will be allocated to athletes who have met a required performance level at Continental Cups and / or Elite and U23 Oceania Champs within the last 12 months. This is a rolling 12month period with results counting back from the race date you request entry into. Entries need to be submitted no less than 6 weeks prior to the event, race results occurring after the production of a start-list and the race date cannot be considered.

The required level is:

- Athletes who have finished twice in a Conti Cup within 3% of the winner

Upon entry from TriNZ, starts will be distributed based on the ITU points system at the year of competition.

World Triathlon Series (WTS):

Entries for WTS events will be given to athletes whom have met the required performance level at World Cups within the last 12months. This is a rolling 12month period with results counting back from the race date you request entry into. Entries need to be submitted no less than 6 weeks prior to the event, race results occurring after the production of a start-list and the race date cannot be considered.

That required level is:

- Athletes who have finished twice in a World Cup within 3% of the winner

Upon entry from Triathlon New Zealand starts will be distributed based on the ITU WTS and ITU points systems at the year of competition.

Substitution Spots:

At their discretion Triathlon New Zealand can use up to two substitution spots at Continental Cups and World Cups, and one substitution spot at World Triathlon Series events. These are used by entering a highly ranked athlete not racing that specific event, and substituting this athlete with one of lower rank.

These spots will be distributed to eligible athletes in the following order.

- a) High Performance Carded athletes based on Tier, then Elite ITU points ranking.
- b) U23 athletes, ranked based on their Elite ITU points ranking.
- c) An athlete's Elite ITU points ranking.

Maintaining a Standard:

Athletes are required to maintain a level of fitness and performance that regularly achieves the 3% entry standard for World Cup and WTS events throughout the year. If these standards are not maintained, athletes are required to submit any extenuating circumstances to the GM of Performance and at their sole discretion the entry into any following events can be made or withdrawn.
