C. MAXIMUM NATIONAL AGE GROUP TEAM SIZE

15. The maximum National Age Group Team size is determined by the World Triathlon (WT) Competition Rules. These rules allow Tri NZ to select up to **20 males and 20 females per age group** in each race distance.

17. The primary selection event is:

The New Zealand Cross Triathlon National Championships, Wanaka, **Saturday 18th February 2023**
18. Subject to the other terms of this policy, the first 16 eligible athletes in each age and gender group to cross the line at the primary selection event will gain automatic selection, as long as their finishing time is within 20% of first place in their respective age and gender group. Selection is subject to selectors' discretion.

In accordance with the Tri NZ Competition Rules, and for the purpose of a fair selection criteria throughout all age groups, the time of an athlete who holds current Professional or Elite status with any World Triathlon Member National Triathlon Governing Body, World Triathlon Corporation's (WTC's) Pro Membership Program or having raced as an elite/professional in any event during the past 12 months will not be considered in the age group selection times, nor shall such athlete be eligible for selection as an age group athlete. This is subject to the exemptions in a. and b. below.
- a. Athletes whose only Elite race in the past 12 months was an World Triathlon Continental Cup will remain eligible for participation in age group races and will be eligible for medals and awards. Refer to the World Triathlon rules regarding eligibility for more details.
20. Athletes aged 16-19 will be eligible for the 16-19 age group medals/awards unless they have raced as a junior elite at an World Triathlon Championships during the past 12 months. This rule will also apply to athletes moving from 16-19 age group, into the 20-24 age group in the next calendar year
21. In the circumstance that a winner of an age group is 10 minutes or more ahead of the second-place athlete, the 20% allowance will be taken from the 2nd placed athlete's finishing time, e.g. time of first place athlete is 3:00:00 and second place is 3:15:00, the 20% will be taken from the 3:15:00 time.
22. In the event that following the selection of eligible athletes as provided in clauses 18 and 19, less than 16 athletes have been allocated in each age and gender group, then at the selector's discretion the number of Special circumstances slots may be increased up to the number of slots that have not been allocated (as an example, if following the primary selection event only 10 slots have been allocated, a maximum of 10 special circumstances slots will be available).
23. Athletes that podium (1st, 2nd or 3rd) at an official World Triathlon Championship event (while representing New Zealand) will be granted special circumstance entry into the same team the following year. This is provided they are able to prove on-going dedication and have maintained physical fitness. Athletes who are selected by this method must submit their special circumstance form within two working days of the final selection event. If an athlete qualifies by this method, the number of special circumstance slots for the age group will reduce accordingly. For example, if in the women's 40-44 age group, a NZ athlete places third, there will only be 3 special consideration slots available for the following year's selection race in that distance. Should the number of athletes who meet the criteria at the selection events be less than the allocated slots (16 in this instance), the number of special circumstance spots will revert to the original allocation (in this case 4).

24. The remaining available slots (unless reduced as provided in clause 20 or increased due to the non-allocation of slots at the Primary selection event) will be determined by selector discretion following special circumstance procedures set out in F below.
